Subject: New DMRs for Diaperville
Attachments: BadRiverDiaperville_WI0036544.doc

Pat and Cecile,

Attached are the 3/13 - 2/14 DMRs for Diaperville. If you need a copy of the MOR form, please let me know. They can be filled in online but you must print, sign and submit a hard copy to EPA to the following address unless you decide to electronically report using NetDMR as discussed below:

U.S. Environmental Protection Agency
Water Enforcement & Compliance Assurance Branch
Attention: Branch Chief - WC-15J
77 West Jackson Boulevard
Chicago, Illinois 60604

Also, if your permit asks, as a courtesy, to send a copy to the state agency, please use the address in your permit.

Instead of sending the report forms through the mail, you can email (colletti.john@epa.gov) me copies of the signed forms and I will forward them to the appropriate staff at EPA. Please let me know if you have any questions.

There is now available an additional option for reporting monitoring results to EPA. NetDMR is a national tool for regulated Clean Water Act permittees to submit discharge monitoring reports (DMRs) electronically via a secure Internet application to EPA through the Environmental Information Exchange Network. EPA Region 5 will begin the work to deploy NetDMR and encourages anyone interested in using NetDMR to report DMR data instead of mailing hard copy forms to contact James Coleman at 312-886-0148 for the appropriate training to begin utilizing the electronic reporting tool.
